INTERAVIA

World Review of Aviation • Astronautics • Avionics

Index for Year 1980 – Volume XXXV

PRINCIPAL TOPICS

1 Military maritime aviation
World Air Forces Survey
Helicopters in the Alps

2 Advances in General Aviation technology
Swedish aerospace prospects
F-18 development

3 Air-launched missiles
New NATO Identification System
Airborne radars

4 German aerospace scene
ATC flow management
Military communications satellites

5 Aircraft engines
Tornado ADV
Civil and military ground radars

6 Aviation meteorology
Building airports in developing countries
Lockheed's L-1011-500 TriStar

7 Growing helicopter market
The World's military helicopter fleet survey
Automatic landing

8 AEW Nimrod and AWACS
Europe's combat aircraft
Boeing rides high

9 Business aviation
Aerospace in Britain
Helicopter developments

10 Air defence ground systems
Highlights from the Farnborough Air Show
Progress on the Space Shuttle

11 USAF trainer aircraft program
Interavia's review of world airlines
Airbus A310 and A300-600

12 US aerospace industry
New in air transport: the DC-9 Super 80
Military data links

SUBJECT INDEX

AIR TRANSPORT

UK gives more power to Civil Aviation Authority: 1/7
Recent airline orders: 1/8; 2/108; 3/184; 4/276; 5/392; 6/487; 7/572; 8/660; 9/748; 10/880; 11/974; 12/1088
FAA tightens up on safety: 1/8
IATA faces a difficult new decade: 2/107
Company reports review: 2/169
1979: a year of marked growth for the world of air transport: 2/171
Major expansion for Spanish airlines: 3/184
Airbus A310: Cockpit layout and crew complement debated: 3/227
Bumps and currents in US 1979 air traffic: 4/275
1979 a good year for Air France: 4/275
Pilot's Assistants for Air UK: 4/276
Selected financial results, FY 79: 4/278
Swissair aims at quality and continued profitability: 4/354
Alitalia Chairman looks at the 80s: 4/356
Aéroformation: Success of Airbus spurs growth – *G. Chambost:* 4/360
Caledonian Airmotive: new CF6 engine overhaul facility at Prestwick – *D. Wood:* 4/362
Commuter aircraft and airlines: former FAA Chief's opinion: 5/391
Beech Aircraft survey on future needs of commuter airlines: 5/392
Bermuda II amended: 9/392
British CAA deroutes Skytrain, selects BCAL: 5/394
IATA scheduled and charter North Atlantic traffic in 1979: 5/394
Il-86: The Russian Airbus: 5/426
Britain's regional and domestic airline system in 1980 – *P. Maurice:* 5/431
Lockheed looks forward in the civil market – *J. Geddes:* 6/523
Aviation meteorology and the WMO – *C. Bulloch:* 6/527
US CAB decisions on fare ceilings: 7/571
Laker Airways Skytrain to Miami: 7/572
Final DC-10 airworthiness directive: 7/571
Automatic landing – now a matter of course: 7/583
MLS: user commitment is needed now – *M. F. Whitney:* 7/587
Iceland's air transport network – *D. Birch:* 7/634
IATA files on CAB Show Cause Order: 8/659
UK-style deregulation?: 8/660
Commuter aircraft and FAR 24: New rules for a changing game – *M. Grangier, E. Biass:* 8/719
European commuter airline association planned: 9/747
Britain's Aerospace Industry – *D. Wood, P. Maurice:* 9/767
Two different styles in European commuter airlines: Widerøe (Norway) and Crossair (Switzerland) – *M. Grangier:* 9/815
FAA multi-faceted aircraft fire safety effort: 10/879
Braniff discusses sale of aircraft: 10/879
How to get more out of your 747: PanAm and Qantas take different routes – *P. Maurice:* 10/931
Air Europe flies the British holidaymakers – *P. Maurice:* 10/949
The latest 737 enters service: 10/958
Spiralling costs of airline operations in Europe: 11/973
B. CAL extends North Atlantic network as BA and Air UK cut back services: 11/973
ICAO review of economic trends in air transport: 11/974
Airbus' heavenly twins – A310 and A300-600 – *M. Lambert:* 11/1001
Storm signals for international air transport: 11/1007
Aviation fuel and the airlines – *P. Maurice:* 11/1008
Computerized flight management for fuel saving – *C. Bulloch:* 11/1010
The top performers – *Interavia's* Review of World Airlines: 11/1021
The battle for the new 120-140 seater market – *P. Maurice:* 11/1061
IATA AGM in Montreal: 12/1087
FAA 1981-1992 Aviation Forecasts: 12/1087
UK Government rejects B.CAL/Laker cheap fare proposals: 12/1088

Improved communications speed airline reservations – *P. Maurice :* 12/1103
Swissair stresses environment benefits of DC-9 Super 80 – *M. Lambert :* 12/1105
The next medium-range airliner – European airlines' wish list : 12/1147
Airliner manufacture – looking into the future – *Quaestor :* 12/1149
Braathens SAFE – a constant struggle to survive – *M. Grangier :* 12/1153
The speaking computer – automatic voice advisory coming on line – *C. Bulloch :* 12/1151

GENERAL AVIATION

Helicopter operations in the Alps – *M. Grangier :* 1/55
Research programs in general aviation : Next generation aircraft – *M. Grangier :* 2/123
The Mitsubishi Diamond 1 : What are its chances on the current market ? – *M. Grangier :* 2/129
Choosing civil maritime patrol aircraft – it isn't all that simple – *P. Geddes :* 2/147
Norway : Maritime aviation booming – *K. Levstuhagen :* 2/150
UK Civil Maritime Air Operations – *D. Wood :* 2/152
General Aviation in the US : a healthy, growing industry : 3/189
Raisbeck Mark IV system for Learjet Century III : 3/190
Learfan 2100 to be produced in UK : 4/281
US GAMA member companies deliveries 1979 : 4/282
1,000th Learjet delivered : 4/282
La Comisión Federal de Electricidad de México : Helicopters bringing progress to high altitudes – *M. Grangier :* 4/358
HAA Show report : Helicopter industry enters new growth phase : 4/375
A new light aircraft manufacturer in Italy ? : 5/398
Helicopter 'ambulances' : A developing market – *M. Grangier :* 5/436
Heliflight Systems Inc. – Total helicopter support – *M. Grangier :* 6/542
Flying the offshore oil rigs : Petroleum Helicopters Inc and Helicopter Service A/S – *M. Grangier :* 7/596
Commercial Chinook on the North Sea – *P. Maurice :* 7/600
Lear Fan to fly next month : 9/753
Is general aviation at a turning point ? – *M. Grangier :* 9/799
US and European general aviation – Fleets and utilisation : 9/802
Certificating the Learjet 50 – *P. Geddes :* 9/818
GenAv avionics towards the 'Glass Cockpit' – *C. Bulloch :* 9/819
Challenger post-certification problems : 10/885
The 33rd NBAA Show : 11/980
Mitsubishi Diamond 1 program status : 11/982
Aerial survey photography – *M. Grangier :* 11/1050
Growing demand for "big bizjets" : 12/1092

AIRPORTS

What brings us down tomorrow – landing guidance systems for the 1980s – *R. Goodson :* 1/58
UK : the most expensive place to land – *P. Maurice :* 4/332
Airport construction in the third World – A look at the problems – *M. Grangier :* 6/507
Automatic landing – now a matter of course : 7/583
MLS : user commitment is needed now – *M. F. Whitney :* 7/587
New Swiss "aircraft-noise tax" : 8/661
New Hartsfield terminal complex at Atlanta : 11/975

AIR TRAFFIC CONTROL

ATC flow management : Fuel is the spur and data links the key – *D. Boyle, C. Bulloch :* 4/327
Primary radar – a continuing role in ATC : 5/455
Interavia surface radar catalogue : 5/457
Britain's new Air Traffic Control radar network – *W. Stokhof :* 7/631
Possible US ATC strike : 10/880
Low-level shear and clear-air turbulence as accident causes – *C. Bulloch :* 12/1155

MILITARY AVIATION

Improving Europe's nuclear capability : 1/15
£200 million Sting Ray airlaunched torpedo contract : 1/16
NATO's maritime air defences : Countering the increasing Soviet maritime threat – *D. Chopping :* 1/27
United States of America : Safeguarding the Western Atlantic and the Pacific coast – *R. Lopez :* 1/30
Canada : Patrolling the Northern Territories – *D. Godfrey :* 1/34
France : Protection of nuclear strategic forces – *G. Chambost :* 1/36
Netherlands : Joint surveillance of Northern coastline – *N. v. Dam :* 1/38
Germany : Defence of the North Sea and Baltic – *U. Philipp :* 1/40
Italy : Monitoring the Southern Flank – *G. Sleiter :* 1/42
United Kingdom : Control of the Eastern Seaways – *D. Wood :* 1/44
Interavia's Review of World Air Forces 1980 : 1/67
Review of the US five-year defence program : 2/110
FX fighter clearance erodes Carter's arms sales policy : 2/112
F/A-18 Hornet – a status report – *C. Gilson :* 2/139
Gen Limberg calls for two-way street : 3/191
Swedish Air Force recommends SK2 procurement : 3/192
Luftwaffe presents TKF proposals : 3/192
The NATO Identification System – *D. Boyle :* 3/201
ALCM – Who will build the air-launched cruise missile ? – *R. Lopez :* 3/206
Air-to-air missiles of the Western World – *M. Hewish :* 3/209
Air Defence Systems Planning – *W. M. Stothard, Dr. R. Woodcock :* 3/215
Look-out-SOTAS "single most effective and valuable collector of intelligence : 3/243
German defence budget : last-minute supplement : 4/284
French evaluation of Hawkeye : 4/283
US need for V/STOL strike aircraft : 4/284
German Air Force missions and planning : 4/303
IAI to build new combat aircraft : 5/396
UK re-starts AV-8B evaluation : 5/400
Tornado nearing operational service : 5/424
V/STOL at the crossroads – *D. Wood :* 6/539
GAF Alpha Jet operational features – *D. Chopping :* 6/544
PAH-2 to have helicopter fighter role ? : 7/576
US Rapier procurement still uncertain : 7/577
RAF plagued by airframe fatigue : 7/577
Military helicopters for the next decade – *M. Grangier :* 7/619
The world's military helicopter fleet : 7/621
Tornado delivered to UK training unit : 8/663
French defence plans : 8/664
Canadian defence budget estimates : 8/665
Airborne Early Warning : two major systems for Europe – *D. Boyle :* 8/695
Europe's combat aircraft : will it happen ? – *M. Lambert :* 8/702
Night/Adverse weather A-10 at the cross roads – *R. Lopez :* 8/707
McDonnell Douglas KC-10 A Extender : 8/710
Mirage 2000 : A fighter tailored to a budget – *G. Chambost :* 8/712
UK puts off AV-8B and Harrier Mk 5 choice : 9/749
Tornado conversion courses underway at MBB : 9/751
The anti-tank helicopter – France asks what next ? – *M. Lambert :* 9/844
Stealth aircraft : 10/883
US Defence Authorization Bill approved : 10/883
WM-1 program status : 10/884
In NATO's front line: US air defense in Germany – *M. Lambert :* 10/915
BAe expects to double Rapier sales – *M. Hewish :* 10/920
UKADGE latest development for the ground defence environment – *D. Boyle :* 10/922
European military engines – How will they survive ? – *D. Wood :* 10/947
A "low"-cost fighter for Sweden ? : 11/978
Candidates abound for the US Air Force trainer program – *R. Lopez :* 11/1045
Hughes Defender II : the armed scout : 11/1066
Strike Eagle : the all weather strike version of the F-15 : 11/1066
F-18A development progress : 11/1069
GAO criticises "CX" transport schedule : 12/1090
The new American export fighters – *C. Gilson* and *M. Lambert :* 12/1165
"Send three and fourpence" – the US military updates its airborne communications, command and control systems – *H. Lucas :* 12/1099

SPACE

Radio conference extends satellite bands : 1/11
India's space program : Across the board on a shoestring – *H. P. Mama :* 1/60
Ariane : third time lucky : 2/116
Cinderella spacecraft : Deep-space probes face funding starvation, despite brilliant achievements in 1979 – *C. Bulloch :* 3/231
West German space programs : 4/311
Military communications satellites : a brief overview of current US and Soviet systems : 4/351
Creation of Arianespace, the world's first space transportation company : 5/401
European Space Agency's 1980 budget : 5/401
Europe pioneers direct-broadcast TV satellites : 7/645
Intelsat plans ahead : 9/754
ESA going alone to Halley : 9/754
Indian launcher success : 9/754
Space Shuttle progress – Nearing the end of the tunnel ? – *C. Bulloch :* 10/899
Swedish satellite to extend country's capability : 11/983
Ariane launch failure : 12/1093

INDUSTRY

A vintage year for Airbus : 1/9
Fokker concentrates on F.29 project : 1/10
Aeritalia's AIT 230 commuter aircraft project : 1/11
German research funding to increase : 1/12
Air France selects CF6 for future A310s : 2/109
US studies on new commuter aircraft : 2/114
The Swedish aerospace industry seeks new projects : New multi-role military aircraft planned for the nineties : 2/159
Transport aircraft sales and deliveries, July-December 1979 : 3/184
Major Boeing contract for Redifon : 3/186
Saab-Fairchild commuter aircraft program : 3/186
Go-ahead for the Twin Hercules : 3/188
Helibras ready to go : 3/189
Aérospatiale updates its range for the 1980s : Three new twin-turbine helicopters introduced – *M. Grangier :* 3/246
Fokker/VFW separation terms : 4/278
Selected financial results, FY 79 : 4/278 ; 8/662
French aerospace export orders in 1979 : 4/279
Further details on the Fairchild/Saab-Scania communter aircraft : 4/279
BAe and McDonnell Douglas team to join US Navy trainer contest : 4/280
Gulfstream American to change hands ? : 4/281
Bonn uneasy about cost of Airbus program : 4/309
Plans and programs of the German aerospace industry : 4/312
MBB – One of Europe's largest aerospace integrators : 4/313
VFW awaits its second marriage : 4/317
Dornier stays among the leaders : 4/318

German engine manufacturers : workload satisfactory : 4/320
Aéroformation – Success of Airbus spurs growth – *G. Chambost :* 4/360
Caledonian Airmotive : new CF6 engine overhaul facility at Prestwick – *D. Wood :* 4/362
New orders for Boeing : 5/395
Development of the aeronautical industry in Indonesia : 5/397
A new light aircraft manufacturer in Italy ? : 5/398
25th anniversary of the first flight of the Alouette II : 5/398
The DC-8 re-engining program – *J. McGowen :* 5/419
Lockheed looks forward in the civil market – *P. Geddes :* 6/523
Heliflight Systems Inc. – Total helicopter support – *M. Grangier :* 6/542
DC-9 Super 80 delivery date maintained : 7/572
UK radar jammed : 7/573
The Helicopter Boom is here – *M. Lambert :* 7/594
1979 results and outlook for Italian aerospace industry : 8/662
Aerospatiale results for 1979 : 8//661
Selected financial results 1979 : 8/662
Boeing rides high – *K. Regelin :* 8/675
767 – Boeing's next world-beater – *K. Regelin :* 8/678
Commuter aircraft and FAR 24 : New rules for a changing game – *M. Grangier, E. Biass :* 8/719
Avions Marcel Dassault/Breguet Aviation : 1979 year-end report : 9/750
Transport aircraft sales, options and deliveries, January-June 1980 : 9/750
Helicopters breaking the 200 kn barrier : Three systems could do it this decade – *M. Lambert :* 9/839
Certification of DC-9 Super 80 : 10/881
MTU 1979 results : 10/881
Dornier has a good year : 10/882
BAe expects to double Rapier sales – *M. Hewish :* 10/920
New Swiss trainer for military market : 11/979
Why is Rockwell selling its General Aviation division ? : 11/979
Airbus' heavenly twins – A310 and A300-600 – *M. Lambert :* 11/1001
Candidates abound for the US Air Force trainer program – *R. Lopez :* 11/1045
The battle for the new 120-140 seater market – *P. Maurice :* 11/1061
Douglas nearing DC-XX decision : 11/1064
Massive UK military communications control : 12/1089
The US aerospace industry in 1980s – muted optimism : 12/1123

TECHNOLOGY

What brings us down tomorrow : landing guidance systems for the 1980s – *R. Goodson :* 1/58
Research programs in general aviation : Next generation aircraft – *M. Grangier :* 2/123
Successful flight tests for ABC : 5/396
New developments in US military fighter engines – *D. Boyle :* 5/415
The Toulouse Aeronautical Test Centre : A total aviation facility – *G. Chambost :* 5/434
Sixteen years of Mach 3 flight : 7/636
Helicopters breaking the 200 kn barrier : Three systems could do it this decade – *M. Lambert :* 9/839

ENGINES

Pratt & Whitney launches JT10D-232 : 1/14
F100 recovery program : 2/112
DC-10 engine pylon design cleared : 3/183
US Air Force selects CFM56 for KC-135 re-engining : 3/186
Big-fan engines. A new US generation – *B. Sweetman :* 5/411
New developments in US military fighter engines – *D. Boyle :* 5/415
Turbo-Union RB 199 progress : 5/418
The DC-8 re-engining program – *J. McGowen :* 5/419
Trends in new-generation turboprop engines – *M. Grangier :* 5/422
Rolls-Royce/Japanese RJ 500 design features : 7/573
The new PT7A turboprop – *M. Grangier :* 9/805
Can anyone follow the JT8D ? – *B. Sweetman :* 10/936
European military engines – How will they survive ? – *D. Wood :* 10/947
Supersonic V/STOL rides again ? : 11/976

AVIONICS

The NATO Identification System – *D. Boyle :* 3/201
Interavia review of Western airborne attack radar systems : 3/251
IACS the way ahead in cockpit control : 4/334
New entrant to the cockpit display competition ? – *E. Biass :* 5/438
GenAv avionics : towards the 'Glass Cockpit' – *C. Bulloch :* 9/819
Computerized flight management for fuel saving – *C. Bulloch :* 11/1010.
Improved communications speed airline reservations – *P. Maurice :* 12/1103
The speaking computer – automatic voice advisory coming on line – *C. Bulloch :* 12/1151

INTERNATIONAL CONFERENCES AND EXHIBITIONS

International Meetings and Conferences : 1/18 ; 2/118 ; 3/194 ; 4/286 ; 5/402 ; 6/491 ; 7/578 ; 8/666 ; 9/755 ; 10/886 ; 11/984 ; 12/1094
HAA Show report – Helicopter industry enters new growth phase : 4/375
Hanover International Air Show highlights : 6/491
The British Aviation Equipment Exhibition, Shanghai, 26 March- 5 April, 1980 : 6/556
AFCEA 80 Show and Conference : Heavy stress on communications : 8/729
Farnborough International 80 : Aerospace waiting for decisions : 9/756
Farnborough 80 : 10/887
The 33rd NBAA Show : 11/980

DATA TABLES

Interavia's Review of World Air Forces 1980 : 1/67
Western air-to-air Missiles : 3/212
Interavia review of Western airborne attack radar systems : 3/251
IATA scheduled and charter North Atlantic traffic in 1979 : 5/394
European Space Agency's 1980 budget : 5/401
Interavia surface radar catalogue : 5/457
The world's military helicopter fleet : 7/621
US and European general aviation : Fleets and utilisation : 9/802

REGULAR FEATURES

World of aerospace : 1/7 ; 2/107 ; 3/183 ; 4/275 ; 5/391 ; 6/487 ; 7/571 ; 8/659 ; 9/747 ; 10/879 ; 11/974 ; 12/1087
New products & technology : 1/93 ; 2/165 ; 3/261 ; 4/371 ; 5/447 ; 6/551 ; 7/638 ; 8/723 ; 9/855 ; 10/953 ; 11/1070 ; 12/1159
Book reviews : 1/97 ; 9/859
Letters to the Editor : 2/172 ; 6/558

AUTHORS

(signed articles)

Biass, Eric
New entrant to the cockpit display competition ? : 5/438
Commuter aircraft and FAR 24 : new rules for a changing game : 8/719

Birch, Doug
Iceland's air transport network : 7/634

Boyle, Dan
The NATO Identification System : 3/201
ATC flow management : fuel is the spur and data links the key : 4/327
New developments in US military fighter engines : 5/415
Airborne Early Warning : two major systems for Europe : 8/695
UKADGE latest development for the ground defence environment : 10/922

Bulloch, Chris
Cinderella spacecraft : deep-space probes face funding starvation, despite brilliant achievements in 1979 : 3/231
ATC flow management : fuel is the spur and data links the key : 4/327
Aviation meteorology and the WMO : 6/527
GenAv avionics : towards the 'Glass Cockpit' : 9/819
Space Shuttle progress – nearing the end of the tunnel ? : 10/899
Computerized flight management for fuel saving : 11/1010
The speaking computer – automatic voice advisory coming on line : 12/1151
Low-level shear and clear-air turbulence as accident causes : 12/1155

Chambost, Germain
NATO's maritime air defences – France : protection of nuclear strategic forces : 1/36
Aéroformation : success of Airbus spurs growth : 4/360
The Toulouse Aeronautical Test Centre : a total aviation facility : 5/434
Mirage 2000 : a fighter tailored to a budget : 8/712

Chopping, Douglas
NATO's maritime air defences : countering the increasing Soviet maritime threat : 1/27
GAF Alpha Jet operational features : 6/544

Garside, Peter
Britain's new Air Traffic Control radar network : 7/631

Geddes, Philip
Choosing civil maritime patrol aircraft – it isn't all that simple : 2/147
Lockheed looks forward in the civil market : 6/523
Certificating the Learjet 50 : 9/818

Gilson, Charles
F/A-18 Hornet : a status report : 2/139
The new American export fighters : 12/1165

Godfrey, David
NATO's maritime air defences – Canada : patrolling the Northern Territories : 1/34

Goodson, Rodger
What brings us down tomorrow : landing guidance systems for the 1980s : 1/58

Grangier, Marc
Helicopter operations in the Alps : 1/55
Research programs in General Aviation : next generation aircraft : 2/123
The Mitsubishi Diamond 1 : what are its chances on the current market ? : 2/129
Aérospatiale updates its range for the 1980s : three new twin-turbine helicopters introduced : 3/246
